CTP CAR TURNTABLES

Heavy Duty Car Turntable

The CTP's pin-gear drive delivers 100% positive mechanical traction in all weather conditions. Rated up to 20,000 kg on platforms up to 15,000 mm diameter, the hot-dip galvanized structure and IP65-rated components provide maintenance-free service life in exposed outdoor environments. Precise 180° or 360° positioning via PLC control for driveways, luxury estates, commercial vehicle turnarounds, and high-traffic automotive facilities worldwide.

KEY FEATURES

- Pin-gear positive mechanical drive: zero slippage in rain, ice, snow or mud
- Up to 20,000 kg capacity — handles heavy commercial vehicles and specialist equipment
- Up to 15,000 mm platform diameter — the widest in the KETTP turntable range
- Optional Hot-dip galvanized entire structure
- Precise programmable stop positions: 90°, 180°, 270°, 360° via PLC control
- 310 mm pit depth — straightforward civil works for most sites
- All-weather rated: tested in temperatures from -25 °C to +55 °C
- CE certified; suitable for outdoor commercial, industrial and specialist applications

TECHNICAL SPECIFICATIONS

Max Rated Capacity	20,000 kg
Max Diameter	15,000 mm
Drive System	Pin-Gear Mechanical (1.5 kW)
Traction	Positive — zero slip in all weather
Pit Depth	310 mm
Structure Finish	Hot-dip galvanized
Component Rating	IP65
Rotation	360° CW & CCW + programmable stops
Control System	Optional PLC
Operating Temperature	-25 °C to +55 °C
Best For	Outdoor Commercial & Industrial
Certification	CE Marked
